CHEMUK 2025 Exhibitor Testimonials:

"As first-time exhibitors at CHEMUK 2025, we were thoroughly impressed by the quality of the event. It was extremely well organised and strongly promoted online, which helped drive exactly the kind of footfall we were hoping for. We've come away from the show with a strong list of high-quality leads, and we're confident that we can bring real value to those conversations. All in all, CHEMUK 2025 was an excellent show for us and we fully expect to see a very positive ROI. **apmg (Laboratory Furniture)**

Louise Barnes
Marketing Manager

"We exhibited at another great CHEMUK show this year which was again very well organised by the team. We have been at this show since the start and year on year the show and number of visitors has continually grown. The atmosphere was engaging, and we were able to meet a number of existing customers and interact with many potential new clients. Me and the team are looking forward to following up on the interest generated and already plan to be there in 2026." **PROTEGO UK (Flame arresters, Valves, Tank & Safety Equipment)**

Stuart Bold
Sales Manager

The attendance was high, and this was in no small part due to the pre-marketing. The show is definitely growing year by year. We had lots of visitors at our booth and many were previously unknown to us. **Technobis (Laboratory Equipment)**

Sarah Thompson
Technical Sales Manager

We had a very successful 2 days where we met prospective and existing customers, key suppliers and industry experts. The show was well organised and the logistics to, from and within the NEC were very straight forward. Overall, STAKAM would classify the experience as being very worthwhile. **STAKAM Limited (Chemical Manufacturing)**

Andy Henderson
Sales Director

"Our debut at CHEMUK in Birmingham was a success. We had meaningful conversations, made valuable new connections and saw strong interest in our logistics solutions. It was a valuable opportunity to demonstrate our capabilities. We're proud of the visibility we gained at such a key industry event." **Rinnen (Chemical Logistics)**

Xenia Toda
Head of Communications

"Exloc had another successful year at ChemUK 2025, we had good visitor numbers and good mix of old customers and new potentials, the exhibition was well organised as usual and had a great atmosphere and buzz." **Exloc Instruments (Process Instrumentation)**

Andrew Tither
Sales

We have done CHEMUK for several years now and are impressed every year at how much both the exhibition, and the CHEMUK community is growing. **AM Technology (Flow Reactors)**

Dr Mike Kenny MRSC
Director

We attended Chem UK for the second year in a row, after a very successful event last year. We can only say we are impressed yet again with the conversations we had this year. We look forward to attending again. **Recontainers (IBC Containers)**

Chloe Pritchard
Marketing & Operations Manager

We were delighted to attend CHEMUK 2025 as part of our Online Reagents division. The event delivered an excellent turnout and attracted exactly the right audience—engaged, knowledgeable, and relevant to our market. It was a great platform to showcase our latest offerings and connect with both existing clients and new prospects. We're already looking forward to 2026." **PMA Ltd (Chemical Manufacturing)**
